

Welcome to Geography

In Yr 7 Geography you will learn locational knowledge, develop mapskills, study weather and climate, carry out a microclimate enquiry and investigate the changes in London.

View of the Seven Sisters cliffs from the coastguard cottages, Seaford.

Aim: To understand what a field sketch shows and how to successfully draw one.

1. Look at the photograph - how many different human geography and physical geography features can you identify?
2. Listen <https://voca.ro/aAppgiOBDAmi> - to check your understanding.
3. Watch <https://www.youtube.com/watch?v=UhFUJkBW3kk> to find out how to draw a field sketch.
4. Your turn to draw a field sketch. You can choose to draw and label a field sketch from the photograph above OR the view from a window at home.

Tips:

- a) You will need: a piece of plain paper, a pencil and a ruler.
- b) Draw a 20cm (w) x 15cm (h) box.
- c) Draw in the MAJOR lines in each box including skyline and building shape.
- d) Add some smaller details e.g. trees or paths. Note: you DO NOT need all the details.
- e) Add labels to the sketch to identify the human geography and physical geography.
- f) Lastly add - date drawn, the location and a title.

Well Done
